

# How to wear A Toga!

Elmbridge  
Museum

## You will need:

- A large piece of material. An old bed sheet should do the trick!
- Safety pins
- A t-shirt and a pair of shorts/ trousers that are the same colour as your material.

1. Make sure your sheet is the right size.  
Find the long edge of the sheet and hold it up to your waist. Make sure the sheet reaches down to your shins. If the sheet is a bit long, fold it until it is the right length.
2. Position the corner of the sheet shown in the picture by your left hip. Tuck the corner into your waistband or pin it in position with a safety pin. 
3. Wrap the sheet around your waist once then throw the rest of the material over your right shoulder.
4. Bring the material round behind you and under your left arm. You should now have a big loop of material going over your right shoulder and under your left arm.
5. Gather the loose end of the material round to your front and secure it in place with a safety pin. Add a brooch and your Roman outfit is complete!
